Subject index*

A

- Acetylcholine infusion, intracardiac, effect of, upon right heart dynamics in patients with rheumatic heart disease studied during exercise (Bernstein, et al.), 86
- Adult rheumatic fever (Elster), 137 (Annot.)
- Aging, physiological and pathological, 845 (B. Rev.)
- Albright's syndrome, cardiac output and (Bopp, et al.), 394
- Amyl nitrite, response of phonocardiographic and hemodynamic features of mitral stenosis to inhalation of (Bousvaros), 101
- Anastomosis, pulmonary, systemic, study of pulmonary vascular lesions before and after congenital heart disease with pulmonary ischemia (Fragoyannis and Kardalinos), 335
- Anatomy, William Harvey Lectures on whole of, 844 (B. Rev.)
- Aneurysm, calcified, of left ventricular apex associated with intraventricular block of left bundle branch type (Williams, et al.), 557
congenital, of sinus of Valsalva. Anatomy and classification (Sakakibara and Konno), 405
of mitral valve associated with bacterial endocarditis (Hoffman and Robinson), 826
ventricular. Report of case occurring in 16-year-old boy with granulomatous myocarditis (Zeeman, et al.), 270
- Aneurysms, congenital, of sinus of Valsalva. Clinical study (Sakakibara and Konno), 708
- Angina pectoris, paradoxical pulsation of precordium in myocardial infarction and (Eddleman and Langley), 579
- Anginal pain, prolonged (preinfarction angina), significance of (Resnik), 290
- Angiotensin II, hemodynamic and metabolic effects of, during rest and exercise in normal healthy subjects (Johnson and Bruce), 212
- Animals, unanesthetized, role of pericardium in application of Starling mechanism to (Badeer), 427 (Annot.)
- Annotations, 136, 283, 425, 573, 721, 839
- Announcements, 142, 286, 432, 578, 724, 846
- Anticoagulant therapy, thrombosis and, 846 (B. Rev.)
- Anticoagulants, ineffectiveness of, in myocardial infarction (Blake, et al.), 462
- Antihypertensive agent, new, guanethidine sulfate, clinical evaluation of (Chandrasekar, et al.), 309
response to mebutamate (Capla), clinical observations on, in geriatric patients (Porter, et al.), 754

- Aorta, diastolic balloon pumping (with carbon dioxide) in—mechanical assistance to failing circulation (Moulopoulos, et al.), 669
- Aortic and mitral valve disease, hemodynamics of, 846 (B. Rev.)
commissurotomy, transventricular, left ventricular parietal block produced by (Samson and Bruce), 41
valve, damage to, as cause of death in bacterial endocarditis (Cohen and Freedman), 722 (Annot.)
subacute bacterial endocarditis and (Bunn), 573 (Annot.)
- Apex, ventricular, left, calcified aneurysm of, associated with intraventricular block of left bundle branch type (Williams, et al.), 557
- Arrhythmias, atrial, experimental studies on pathogenesis of, in myocardial infarction (James and Hershey), 196
mechanism of, during insulin-induced hypoglycemia (Leak and Starr), 688
- Arterial pressure and hypertensive disease in West Indian Negro population. Report of survey in St. Kitts, West Indies (Schneckloth, et al.), 607
- Arteries, coronary, high-pressure and low-pressure, arteriosclerosis in (Burch and DePasquale), 720 (Annot.)
- Arteriosclerosis, implications of patterns of occlusion in (Edwards), 152
in high-pressure and low-pressure coronary arteries (Burch and DePasquale), 721 (Annot.)
- Arteriovenous fistula, coronary, congenital. Report of case with analysis of seventy-three reported cases (Upshaw), 399
- Artery, coronary, from pulmonary artery masquerading as mitral insufficiency, anomalous origin of (Burchell and Brown), 388
importance of oxygen differentials in etiology of ventricular fibrillation after ligation of (Badeer), 374
pulmonary, dilated, role of, in abnormal splitting of second heart sound (Schrire and Vogel-poel), 501
- Ascent, delayed, clinical significance of P waves with (Gross), 497
- Asphyxia, mechanisms in production of atrial fibrillation during (Birnbbaum, et al.), 676
- Atherosclerosis and levels of serum cholesterol in postmortem investigations (Marek, et al.), 768
cholesterol and serum turbidity evaluation measurements in (Tochowicz, et al.), 760
coronary, vasa vasorum in (Blake), 138 (Annot.)
- Atresia, tricuspid; electrocardiographic study (Somlyo and Halloran), 171

*January, pp. 1-142; February, pp. 143-286; March, pp. 287-432; April, pp. 433-578; May, pp. 579-724; June, pp. 725-864.

- Atrial arrhythmias, experimental studies on pathogenesis of, in myocardial infarction (James and Hershey), 196
 fibrillation during asphyxia, mechanisms in production of (Birnbaum, et al.), 676
 intervals (in 1/100 sec.), consecutive (Table I) (Langendorf, et al.), 654
 parasystole with interpolation. Observations on prolonged sinoatrial conduction (Langendorf, et al.), 649
- Atrioventricular canal, persistent, partial, simulating pure mitral regurgitation (Brockenbrough, et al.), 9
- Atrium, left, and great vessels, suprasternal puncture of. Experience from 500 punctures (Hansen, et al.), 443
- Atropine, local effect of glyceryl trinitrate, nitrite, papaverine, and, upon coronary vascular resistance (Frohlich and Scott), 362
- Auscultation, cardiac, selected clues in (Phillips and Burch), 1
- Australia, tropical and temperate, blood pressure and body build in men in (Doyle) 840 (Annot.)
- A-V dissociation, complete, premature ventricular beats in; returning cycle (Fleischmann and Pick), 299
 heart block, complete, progressive electrocardiographic changes associated with digitalis, in presence of: experimental study (Bennett, et al.), 381

B

- Bacterial endocarditis, aneurysm of mitral valve associated with (Hoffman and Robinson), 826
 damage to aortic valve as cause of death in (Cohen and Freedman), 722 (Annot.)
 subacute, and, aortic valve (Bunn), 573 (Annot.)
- Balloon pumping, diastolic, (with carbon dioxide) in aorta—mechanical assistance to failing circulation (Moulopoulos, et al.), 669
- Beats, ventricular, premature, in complete A-V dissociation; returning cycle (Fleischmann and Pick), 299
 interpolated, iatrogenic parasystole and (Soloff), 563
- Benzothiadiazine drugs, potassium depletion and: source of overconcern? (Weller), 842
- Bilateral bundle-branch block. Critical rates in ventricular conduction (Vesell, et al.), 162
- Binding and storage (Mendlowitz), 721 (Annot.)
- Biochemistry and biophysics, its: myocardium, 141 (B. Rev.)
- Biophysics, biochemistry and, its: myocardium, 141 (B. Rev.)
- Block, bundle branch, left, activation of subendocardial Purkinje fibers and muscle fibers of left septal surface before and after (Venerose, et al.), 346
 vectorcardiographic findings in. Study using Frank lead system (Wallace, et al.), 508
 bundle-branch, bilateral. Critical rates in ventricular conduction (Vesell, et al.), 162
 heart, A-V complete, progressive electrocardiographic changes associated with digitalis in presence of: experimental study (Bennett, et al.), 381

Block—Cont'd

- intraventricular, of left bundle branch type, calcified aneurysm of left ventricular apex associated with (Williams, et al.), 557
 parietal, left ventricular, produced by trans-ventricular aortic commissurotomy (Samson and Bruce), 41
- Blocking agent, adrenergic, (SY-28 (N-[2-bromoethyl]-N-ethyl-1-naphthalene methylamine) effect of, on atrial fibrillation rate produced by anoxia (Table I) (Birnbaum, et al.), 682
- Blood pressure and body build in men in tropical and temperate Australia (Doyle), 840 (Annot.)
 and longevity (Benford), 433
 effect of infusion of saline on response of blood pressure to intravenous tetraethylammonium chloride (McCall and Tuttle), 659
 mean levels of, in women by age and current pregnancy status (Table VIII) (Schnecko, et al.), 618
 recorder, portable. Accuracy and preliminary use in evaluating intradaily variations in pressure (Hinman, et al.), 663
 response to guanethidine and previous therapy (Table I) (Chandrasekar, et al.), 314
 pressures, frequency distribution of, for each sex by age groups (Appendix Tables I-VI) (Schnecko, et al.), 624
- Body build, blood pressure and, in men in tropical and temperate Australia (Doyle), 840 (Annot.)
- Book reviews, 141, 285, 430, 577, 844
- Buerger syndrome and Takayasu's disease, comparison of (Table III) (McKusick), 61
- Build, body, blood pressure and, in men in tropical and temperate Australia (Doyle), 840 (Annot.)
- Bundle branch block, left, activation of subendocardial Purkinje fibers and muscle fibers of left septal surface before and after (Venerose, et al.), 346
 vectorcardiographic findings in. Study using Frank lead system (Wallace, et al.), 508
 type, left, calcified aneurysm of left ventricular apex associated with intraventricular block of (Williams, et al.), 557
- Bundle-branch block, bilateral. Critical rates in ventricular conduction (Vesell, et al.), 162

C

- Calcified aneurysm of left ventricular apex associated with intraventricular block of left bundle branch type (Williams), 557
- Camel, anatomic and electrocardiographic study of heart of (Lapicciarella and Abboni), 644
- Canal, atrioventricular, persistent, partial, simulating pure mitral regurgitation (Brockenbrough, et al.), 9
- Cardiac and renal function, effect of postural changes on, in hypertensive subjects (Taquini, et al.), 78
 auscultation, selected clues in (Phillips and Burch), 1
 conduction system, observations on cardiovascular involvement, including, in progressive muscular dystrophy (James), 48
 defects, multiple, syndrome of levocardia, situs inversus, and absent spleen. Case report (Badr-El-Din), 115
 output and Albright's syndrome (Bopp, et al.), 394

- Cardiogenesis, control and deviation in (Green), 728
normal, aspects of (Green), 727
- Cardiopericardiomyopexy. New surgical treatment for heart diseases, 285 (B. Rev.)
- Cardiovascular involvement, observations on, including cardiac conduction system, in progressive muscular dystrophy (James), 48
responses after intramuscular and subcutaneous administration of levarterenol-solypertine combination and levarterenol (Table VI) (Brown and Green), 550
screening tests, use of death rates to evaluate (Wylie), 92
studies in Samburu tribe of Northern Kenya (Shaper), 437
- Cerebral disorders, electrocardiographic abnormalities in. Report of six cases and review of literature (Hugenholtz), 451
infarction: role of stenosis of extracranial arteries, 845 (B. Rev.)
- Chemical and hormonal factors (Volume IX): hypertension, 285 (B. Rev.)
pathology of nervous system, 844 (B. Rev.)
- Childhood, Q wave in Lead V₆ in heart disease of infancy and, with special reference to diastolic loading (Watson and Keith), 629
- Cholesterol and serum turbidity evaluation measurements in atherosclerosis (Tochowicz, et al.), 760
serum, atherosclerosis and levels of, in postmortem investigations (Marek, et al.), 768
- Circulation, failing, mechanical assistance to; diastolic balloon pumping (with carbon dioxide) in aorta (Mouloupoulos, et al.), 669
peripheral, in cold climates (LeBlanc), 287
photoelectric approach to study of (Weinman and Manoach), 219
- Circulations, systemic and pulmonary, in man, effects of intravenous guanethidine on (Taylor, et al.), 239
- Circulatory effects of sympathomimetic amines (Eckstein and Abboud), 119
responses to hyperventilation and exercise in normal subjects (Thompson, et al.), 106
- Climates, cold, peripheral circulation in (LeBlanc), 287
- Clinical pathologic conference (Ayer, et al.), 566 (Glagov et al.), 830
(Krakower and Roberg), 276
- Clubbing, digital, etiology of (Williams), 139 (Annot.)
- Commissurotomy, aortic, transventricular, left ventricular parietal block produced by (Samson and Bruce), 41
- Conduction defects, electrocardiographic, clinical and kinetocardiographic study of (Part IV) (Davie, et al.), 800
sinoatrial, prolonged, observations on; atrial parasystole with interpolation (Langendorf, et al.), 649
system, cardiac, observations on cardiovascular involvement, including, in progressive muscular dystrophy (James), 48
ventricular, critical rates in. Bilateral bundle-branch block (Vesell, et al.), 162
- Conduction, ventricular—Cont'd
right, delay in onset of right ventricular contraction in patients with surgically induced disturbance of (Goldblatt, et al.), 485
- Conductor, nonhomogeneous, electrical field produced by eccentric current dipole in (Bayley and Berry), 808
- Constriction, tracheoesophageal, produced by unusual combination of anomalies of great vessels (Keats and Martt), 265
- Contraction, ventricular, right, delay in onset of, in patients with surgically induced disturbance of right ventricular conduction (Goldblatt, et al.), 485
- Coronary arteries, high-pressure and low-pressure, arteriosclerosis in (Burch and DePasquale), 720 (Annot.)
arteriovenous fistula, congenital. Report of case with analysis of seventy-three reported cases (Upshaw), 399
artery from pulmonary artery masquerading as mitral insufficiency, anomalous origin of (Burchell and Brown), 388
importance of oxygen differentials in etiology of ventricular fibrillation after ligation of (Badeer), 374
atherosclerosis, vasa vasorum in (Blake), 138 (Annot.)
disease, nicotinic acid therapy in (Hunter), 143
heart disease, absent Q waves and (Blomquist, et al.), 573 (Annot.)
occlusion, open-chest dogs ventilated with 100 per cent oxygen during (Table II) (Badeer), 378
systemic and, hemodynamics, effects of hyperventilation on (Rowe, et al.), 67
vascular resistance, local effect of glyceryl trinitrate, nitrite, papaverine, and atropine upon (Frohlich and Scott), 362
vasodilator drug (Persantin), new; studies with (Kinsella, et al.), 146
- Coumarin drug therapy, complex pattern of response to. Inadequacy of prothrombin test as guide to hypocoagulability (Gollub, et al.), 591
- Countershock, external, treatment of ventricular fibrillation and tachycardia. Case report (Parmley and McGerity), 692
- Current dipole, eccentric, electrical field produced by, in nonhomogeneous conductor (Bayley and Berry), 808
- Cycle, returning; premature ventricular beats in complete A-V dissociation (Fleischmann and Pick), 299
- D
- Death rates, use of, to evaluate cardiovascular screening tests (Wylie), 92
- Defibrillation, external, treatment of quinidine-induced ventricular fibrillation by closed-chest resuscitation and (Rainier-Pope, et al.), 582
- Dialysis, more efficient (Kennedy), 721 (Annot.)
- Diastolic balloon pumping (with carbon dioxide) in aorta—mechanical assistance to failing circulation (Mouloupoulos, et al.), 669

- Diastolic—Cont'd
loading, Q wave in Lead V₆ in heart disease of infancy and childhood, with special reference to (Watson and Keith), 629
- Differentials, oxygen, importance of, in etiology of ventricular fibrillation after ligation of coronary artery (Badeer), 374
- Digital clubbing, etiology of (Williams), 139 (Annot.)
- Digitalis dosage—individualized or confused? (Love), 575 (Annot.)
progressive electrocardiographic changes associated with, in presence of complete A-V heart block: experimental study (Bennett, et al.), 381
- Digitalis-therapie, Taschenbuch der, 431 (B. Rev.)
- Digoxin, tritiated, studies with, in human subjects after intravenous administration (Doherty and Perkins), 528
- Dipole, current, eccentric, electrical field produced by, in nonhomogeneous conductor (Bayley and Berry), 808
eccentric, in heart cavity of circular lamina (Appendix II) (Bayley and Berry), 818
- Direct-writing phonocardiograph, improved, clinical evaluation of (Brody, et al.), 34
- Disease, mechanisms of, 141 (B. Rev.)
vascular, form of, relatively frequent in Orient (McKusick), 57
- Dissociation, A-V, complete, premature ventricular beats in; returning cycle (Fleischmann and Pick), 299
- Drug, coumarin, therapy, complex pattern of response to. Inadequacy of prothrombin test as guide to hypocoagulability (Gollub, et al.), 591
- Dystrophy, muscular, progressive, observations on cardiovascular involvement, including cardiac conduction system, in (James), 48
myotonic, with electrocardiographic abnormalities. Report of case (Miller), 704
- E
- Editorials, 1, 143, 287, 433, 579, 725
Blood pressure and longevity (Benford), 433
Maldevelopment and the heart (Green), 725
Nicotinic acid therapy in coronary disease (Hunter), 143
Paradoxical pulsation of precordium in myocardial infarction and angina pectoris (Eddleman and Langley), 579
Peripheral circulation in cold climates (LeBlanc), 287
Selected clues in cardiac auscultation (Phillips and Burch), 1
- Effusion, pericardial, massive, in patient with myocardial infarction (Doyle and Grace), 560
- Electrical field produced by eccentric current dipole in nonhomogeneous conductor (Bayley and Berry), 808
- Electrocardiograms, teleoroentgenograms, and kinecardiograms, comparative study of, from patients with left ventricular function (Part I) (Davie, et al.), 775
touring and (Chatillon and Duchosal), 283 (Annot.)
- Electrocardiographic abnormalities in cerebral disorders. Report of six cases and review of literature (Hugenholtz), 451
myotonic dystrophy with. Report of case (Miller), 704
anatomic and, study of heart of camel (Lapicicrella and Abboni), 644
changes, progressive, associated with digitalis in presence of complete A-V heart block: experimental study (Bennett, et al.), 381
finding of left ventricular hypertrophy (LVH) by sex, age, and diastolic blood pressure (Table XI) (Schneckloth, et al.), 620
findings in concentric and eccentric left ventricular hypertrophy (Selzer, et al.), 320
intrinsic, properties of uniform double layers (Brody), 841 (Annot.)
pattern of left ventricular hypertrophy, sequential changes in development of, in hypertensive heart disease (Cosby, et al.), 180
recognition of left ventricular hypertrophy (Rosenfeld, et al.), 731
study; tricuspid atresia (Somlyo and Halloran), 171
- Electrocardiography, differentiation between normal and abnormal in, 577 (B. Rev.)
- Elektrokardiographie, klinische, 430 (B. Rev.)
- Embolism to right side of heart (Hudnut, et al.), 743
- Embryology, human, introduction to; stages of human development before birth, 430 (B. Rev.)
- Endocarditis, bacterial, aneurysm of mitral valve associated with (Hoffman and Robinson), 826
subacute, and aortic valve (Bunn), 573
- Exercise, circulatory responses to hyperventilation and, in normal subjects (Thompson, et al), 106
effect of intracardiac acetylcholine infusion upon right heart dynamics in patients with rheumatic heart disease studied during (Bernstein, et al.), 86
hemodynamic and metabolic effects of angiotensin II during rest and, in normal healthy subjects (Johnson and Bruce), 212
- F
- Fat infiltration, myocardial (Carpenter), 491
- Fever, rheumatic, in tropics (García P., et al.), 18
- Fibrillation and tachycardia, ventricular, external countershock treatment of. Case report (Parmley and McGerity), 692
atrial, during asphyxia, mechanisms in production of (Birnbaum, et al.), 676
ventricular, importance of oxygen differentials in etiology of, after ligation of coronary artery (Badeer), 374
interruption of T waves by premature QRS complexes and relationship of this phenomenon to (Palmer), 367
quinidine-induced, treatment of, by closed-chest resuscitation and external defibrillation (Rainier-Pope, et al.), 582
- Fistula, coronary arteriovenous, congenital. Report of case with analysis of seventy-three reported cases (Upshaw) 399
- Flow patterns in heart and great vessels of man. Preliminary report on radiopaque streamer technique (Rockoff, et al.), 553

- Foetal and neonatal physiology, symposium on, 142 (B. Rev.)
- Formulas, suggested, for relationship between R-R and Q-T intervals (Table I) (Simonson, et al.), 748
- Frank lead system, study using; vectorcardiogram in left ventricular hypertrophy (Wallace, et al.), 466
- vectorcardiographic findings in left bundle branch block (Wallace, et al.), 508

G

- Generator, sound, intracardiac, for study of transmission of heart murmurs in man (Feruglio), 232
- Genetics, human, 431 (B. Rev.)
- Geriatric patients, clinical observations on anti-hypertensive response to mebutamate (Capla) in (Porter, et al.), 754
- Glyceryl trinitrate, nitrite, papaverine, and atropine, local effect of, upon coronary vascular resistance (Frohlich and Scott), 362
- Granulomatous myocarditis, report of case occurring in 16-year-old boy with: ventricular aneurysm (Zeeman, et al.), 270
- Great vessels, flow patterns in heart and, of man. Preliminary report on radiopaque streamer technique (Rockoff, et al.), 553
- suprasternal puncture of left atrium and. Experience from 500 punctures (Hansen, et al.), 443
- tracheoesophageal constriction produced by unusual combination of anomalies of (Keats and Martt), 265
- Guanethidine, intravenous, effects of, on systemic and pulmonary circulations in man (Taylor, et al.), 239
- sulfate, new antihypertensive agent, clinical evaluation of (Chandrasekar, et al.), 309

H

- Healthy subjects, normal, hemodynamic and metabolic effects of angiotensin II during rest and exercise in (Johnson and Bruce), 212
- Heart and great vessels of man, flow patterns in. Preliminary report on radiopaque streamer technique (Rockoff, et al.), 553
- block, A-V complete, progressive electrocardiographic changes associated with digitalis in presence of: experimental study (Bennett, et al.), 381
- cavity of circular lamina, eccentric dipole in (Appendix II) (Bayley and Berry), 818
- congenital rhabdomyoma of, so-called, monster Purkinje-cell nature of. *Forme fruste* of tuberosus sclerosis (Elliott and McGeachy), 636
- embolism to right side of (Hudnut, et al.), 743
- disease, congenital, with pulmonary ischemia. Study of pulmonary vascular lesions before and after systemic pulmonary anastomosis (Fragoyannis and Kardalinos), 335
- coronary, absent Q waves and (Blomquist, et al.), 573 (Annot.)
- hypertensive, sequential changes in development of electrocardiographic pattern of left ventricular hypertrophy in (Cosby, et al.), 180

Heart, disease—Cont'd

- ischemic, objective evaluation of (Davis), 136 (Annot.)
- of infancy and childhood, depth of Q_{V_6} in (Table II) (Watson and Keith), 631
- Q wave in Lead V_6 in, with special reference to diastolic loading (Watson and Keith), 629
- rheumatic, effect of intracardiac acetylcholine infusion upon right heart dynamics in patients with, studied during exercise (Bernstein, et al.), 86
- diseases, surgical treatment for: cardiopericardiomyopexy, 285 (B. Rev.)
- hypothermic, work capacity of (Badeer), 839 (Annot.)
- maldevelopment and (Green), 725
- murmurs and thrills (Sakakibara and Konno), 711
- intracardiac sound generator for study of transmission of, in man (Feruglio), 232
- of camel, anatomic and electrocardiographic study of (Lapicciarella and Abboni), 644
- right, dynamics, effect of intracardiac acetylcholine infusion upon, in patients with rheumatic heart disease studied during exercise (Bernstein, et al.), 86
- Somalian camel, schematic representation of coronary system of (Fig. 2) (Lapicciarella and Abboni), 647
- sound, second, role of dilated pulmonary artery in abnormal splitting of (Schrire and Vogel-poe), 501
- traumatic interventricular septal defect of. Case report (Stern and Stoddard), 821
- vector, tempero-spatial, calculated, in proved isolated left ventricular overwork (Toole, et al.), 537
- your, stress and, 141 (B. Rev.)
- Hemodynamic and metabolic effects of angiotensin II during rest and exercise in normal healthy subjects (Johnson and Bruce), 212
- phonocardiographic and, features of mitral stenosis, response of, to inhalation of amyl nitrite (Bousvaros), 101
- Hemodynamics in labile hypertension (Eich, et al.), 188
- of aortic and mitral valve disease, 846 (B. Rev.)
- systemic and coronary, effects of hyperventilation on (Rowe, et al.), 67
- Hormonal, chemical and, factors (Volume IX); hypertension, 285 (B. Rev.)
- Human development, stages of, before birth. Introduction to human embryology, 430 (B. Rev.)
- genetics, 431 (B. Rev.)
- subjects, studies with tritiated digoxin in, after intravenous administration (Doherty and Perkins), 528
- Hyaline pulmonary disease, diffuse, of foals and infants (Burch and DePasquale), 428 (Annot.)
- Hypertension, labile, hemodynamics in (Eich, et al.), 188
- mild, should patient with, be treated? (Walker), 283 (Annot.)
- Volume IX: chemical and hormonal factors, 285 (B. Rev.)

- Hypertensive disease, arterial pressure and, in West Indian Negro population. Report of survey in St. Kitts, West Indies (Schneckloth, et al.), 607
- heart disease, sequential changes in development of electrocardiographic pattern of left ventricular hypertrophy in (Cosby, et al.), 180
- subjects, effect of postural changes on cardiac and renal function in (Taquini, et al.), 78
- Hypertrophic subaortic stenosis, idiopathic (Calvin, et al.), 477
- Hypertrophy, ventricular, left, concentric and eccentric, electrocardiographic findings in (Selzer, et al.), 320
- electrocardiographic recognition of (Rosenfeld, et al.), 731
- R_{V_6} : R_{V_5} voltage ratio in (Holt and Spodick), 65
- sequential changes in development of, in hypertensive heart disease (Cosby, et al.), 180
- vectorcardiogram in. Study using Frank lead system (Wallace, et al.), 466
- Hyperventilation and exercise, circulatory responses to, in normal subjects (Thompson, et al.), 106
- effects of, on systemic and coronary hemodynamics (Rowe, et al.), 67
- Hypocoagulability, inadequacy of prothrombin test as guide to. Complex pattern of response to coumarin drug therapy (Gollub, et al.), 591
- Hypoglycemia, insulin-induced, mechanism of arrhythmias during (Leak and Starr), 688
- Hypothermic heart, work capacity of (Badeer), 839 (Annot.)

I

- Indian, West, Negro population, arterial pressure and hypertensive disease in. Report of survey in St. Kitts, West Indies (Schneckloth, et al.), 607
- Infancy and childhood, Q wave in Lead V_6 in heart disease of, with special reference to diastolic loading (Watson and Keith), 629
- Infarction, cerebral: role of stenosis of extracranial arteries, 845 (B. Rev.)
- myocardial, and angina pectoris, paradoxical pulsation of precordium in (Eddleman and Langley), 579
- incidence of, and mortality in surviving patients (Tochowicz and Pasyk), 600
- ineffectiveness of anticoagulants in (Blake, et al.), 462
- inferoposterior vectorcardiographic QRSs \hat{E} -loop findings in (Walsh, et al.), 516
- massive pericardial effusion in patient with (Doyle and Grace), 560
- Inhalation of amyl nitrite, response of phonocardiographic and hemodynamic features of mitral stenosis to (Bousvaros), 101
- Insufficiency, mitral, anomalous origin of coronary artery from pulmonary artery masquerading as (Burchell and Brown), 388
- Insulin-induced hypoglycemia, mechanism of arrhythmias during (Leak and Starr), 688
- Interpolation, atrial parasystole with; observations on prolonged sinoatrial conduction (Langendorf, et al.), 649
- Interventricular septal defect, traumatic, of heart. Case report (Stern and Stoddard), 821
- Intracardiac acetylcholine infusion, effect of, upon right heart dynamics in patients with rheumatic heart disease studied during exercise (Bernstein, et al.), 86
- sound generator for study of transmission of heart murmurs in man (Feruglio), 232
- Intravenous guanethidine, effects of, on systemic and pulmonary circulations in man (Taylor, et al.), 239
- Intraventricular block of left bundle branch type, calcified aneurysm of left ventricular apex associated with (Williams, et al.), 557
- Ischemia, pulmonary, congenital heart disease with. Study of pulmonary vascular lesions before and after systemic pulmonary anastomosis (Fragoyannis and Kardalinos), 335
- Ischemic heart disease, objective evaluation of (Davis) 136 (Annot.)

K

- Kenya, Northern, cardiovascular studies in Samburu tribe of (Shaper), 437
- Kinetocardiographic studies, clinical and, of paradoxical precordial motion (Davie, et al.), 775
- Koronarverschluss. Klinische Beiträge zur Ätiologie und Pathogenese, 577 (B. Rev.)

L

- Labile hypertension, hemodynamics in (Eich, et al.), 188
- Lamina, circular, eccentric dipole in heart cavity of (Appendix II) (Bayley and Berry), 818
- Layers, double, uniform, intrinsic electrocardiographic properties of (Brody), 841 (Annot.)
- Lead V_6 , Q wave in, in heart disease of infancy and childhood, with special reference to diastolic loading (Watson and Keith), 629
- Lesions, vascular, pulmonary, study of, before and after systemic pulmonary anastomosis. Congenital heart disease with pulmonary ischemia (Fragoyannis and Kardalinos), 335
- Levarterenol-adrenolytic mixture, prevention of tissue necrosis with (Brown and Green), 545
- Levocardia, syndrome of, multiple cardiac defects, situs inversus, and absent spleen. Case report (Badr-El-Din), 115
- with partial situs inversus, incidental finding in 15-year-old boy (Shibolet, et al.), 699
- Ligation of coronary artery, importance of oxygen differentials in etiology of ventricular fibrillation after (Badeer), 374
- Loading, diastolic, Q wave in Lead V_6 in heart disease of infancy and childhood, with special reference to (Watson and Keith), 629
- Longevity, blood pressure and (Benford), 433

M

- Magnetic tape recording, advantages of; time expansion in vectorcardiography (Estes, et al.), 98
- Maldevelopment and heart (Green), 725
- Mebutamate (Capla), clinical observations on anti-hypertensive response to, in geriatric patients (Porter, et al.), 754
- Medical pharmacology: principles and concepts, 285 (B. Rev.)
- Metabolic, hemodynamic and, effects of angiotensin II during rest and exercise in normal healthy subjects (Johnson and Bruce), 212
- Mitral, aortic and, valve disease, hemodynamics of, 846 (B. Rev.)
- insufficiency, anomalous origin of coronary artery from pulmonary artery masquerading as (Burchell and Brown), 388
- regurgitation, pure, partial persistent atrioventricular canal simulating (Brockenbrough, et al.), 9
- stenosis, response of phonocardiographic features and hemodynamic features of, to inhalation of amyl nitrite (Bousvaros), 101
- valve, aneurysm of, associated with bacterial endocarditis (Hoffman and Robinson), 826
- Mixing, myth of (Rowe), 425 (Annot.)
- Mortality in surviving patients, incidence of myocardial infarction and (Tochowicz and Pasyk), 600
- Murmurs and thrills, heart (Sakakibara and Konno), 711
- heart, intracardiac sound generator for study of transmission of, in man (Feruglio), 232
- Muscular dystrophy, progressive, observations on cardiovascular involvement, including cardiac conduction system, in (James), 48
- Myocardial fat infiltration (Carpenter), 491
- infarction, acute, hospital mortality in (exclusive of deaths which occurred within 24 hours) (Table II) (Blake, et al.), 464
- and angina pectoris, paradoxical pulsation of precordium in (Eddleman and Langley), 579
- definition and incidence of precordial bulges due to (Part III) (Davie, et al.), 790
- experimental studies on pathogenesis of atrial arrhythmias in (James and Hershey), 196
- incidence of, and mortality in surviving patients (Tochowicz and Pasyk), 600
- ineffectiveness of anticoagulants in (Blake, et al.), 462
- inferoposterior, vectorcardiographic QRSsE-loop findings in (Walsh, et al.), 516
- massive pericardial effusion in patient with (Doyle and Grace), 560
- Myocarditis, granulomatous, report of case occurring in 16-year-old boy with: ventricular aneurysm (Zeeman, et al.), 270
- Myocardium—its biochemistry and biophysics, 141 (B. Rev.)
- Myotonic dystrophy with electrocardiographic abnormalities. Report of case (Miller), 704
- N
- Necrosis, tissue, prevention of, with levarterenol-adrenolytic mixture (Brown and Green), 545

- Negro population, West Indian, arterial pressure and hypertensive disease in. Report of survey in St. Kitts, West Indies (Schneckloth, et al.), 607
- populations in St. Kitts, Bahamas, and Georgia, comparison of findings in surveys of blood pressure in, and in white populations in Bahamas, Georgia, and Massachusetts (Table V) (Schneckloth, et al.), 613
- Neonatal, foetal and, physiology, symposium on, 142 (B. Rev.)
- Nervous system, chemical pathology of, 844 (B. Rev.)
- Nitrite, glyceryl trinitrate, papaverine, and atropine, local effect of, upon coronary vascular resistance (Frohlich and Scott), 362
- Nonhomogeneous conductor, electrical field produced by eccentric current dipole in (Bayley and Berry), 808

O

- Occlusion, artery, open-chest dogs ventilated with room air during (Table I), (Badeer), 376
- implications of patterns of, in arteriosclerosis (Edwards), 152
- Orient, form of vascular disease relatively frequent in (McKusick), 57
- Overwork, proved isolated left ventricular, calculated tempero-spatial heart vector in (Toole, et al.), 537
- Oxygen differentials, importance of, in etiology of ventricular fibrillation after ligation of coronary artery (Badeer), 374
- Oxytocin, 141 (B. Rev.)

P

- P waves with delayed ascent, clinical significance of (Gross), 497
- Pacemaker, postcardiotomy syndrome after implantation of (Dressler), 757
- Pain, anginal, prolonged (preinfarction angina), significance of (Resnik), 290
- Papaverine, glyceryl trinitrate, nitrite, and atropine, local effect of, upon coronary vascular resistance (Frohlich and Scott), 362
- Parasystole, atrial, with interpolation. Observations on prolonged sinoatrial conduction (Langendorf, et al.), 649
- iatrogenic, and interpolated premature ventricular beats (Soloff), 563
- Parietal block, left ventricular, produced by trans-ventricular aortic commissurotomy (Samson and Bruce), 41
- Patent ductus arteriosus, criteria of left ventricular diastolic overloading in (Table III) (Watson and Keith), 632
- Pathologic Index Rating, information obtained from clinical records, ratings for various clinical findings, and method of determining (Table I) (Blake, et al.), 463
- Pectoris, angina, paradoxical pulsation of precordium in myocardial infarction and (Eddleman and Langley), 579
- Pericardial effusion, massive, in patient with myocardial infarction (Doyle and Grace), 560

- Pericardium, role of, in application of Starling mechanism to unanesthetized animals (Badeer), 427 (Annot.)
- Peripheral circulation, photoelectric approach to study of (Weinman and Manoach), 219
- Persantin: new coronary vasodilator drug, studies with (Kinsella, et al.), 146
- Pharmacology, medical: principles and concepts, 285 (B. Rev.)
- Phonocardiograph, direct-writing, improved, clinical evaluation of (Brody, et al.), 34
- Phonocardiographic and hemodynamic features of mitral stenosis, response of, to inhalation of amyl nitrite (Bousvaros), 101
- Photoelectric approach to study of peripheral circulation (Weinman and Manoach), 219
- Physiology, foetal and neonatal, symposium on, 142 (B. Rev.)
- Postcardiotomy syndrome after implantation of pacemaker (Dressler), 757
- Postural changes, effect of, on cardiac and renal function in hypertensive subjects (Taquini, et al.), 78
- Potassium depletion and benzothiadiazine drugs: source of overconcern? (Weller), 842 (Annot.)
- Precordial "bulges" due to myocardial infarction, definition and incidence of (Part III) (Davie, et al.), 790
 motion, paradoxical, clinical and kinetocardiographic studies of (Davie, et al.), 775
- Precordium, paradoxical pulsation of, in myocardial infarction and angina pectoris (Eddleman and Langley), 579
- Pressure, arterial, and hypertensive disease in West Indian Negro population. Report of survey in St. Kitts, West Indies (Schneekloth, et al.), 607
 blood, and body build in men in tropical and temperate Australia (Doyle), 840 (Annot.)
 and longevity (Benford), 433
 effect of infusion of saline on response of, to intravenous tetraethylammonium chloride (McCall and Tuttle), 659
 recorder, portable. Accuracy and preliminary use in evaluating intradaily variations in pressure (Hinman, et al.), 663
- Prothrombin test, inadequacy of, as guide to hypocoagulability; complex pattern of response to coumarin drug therapy (Gollub, et al.), 591
- Pulmonary artery, coronary artery from, masquerading as mitral insufficiency, anomalous origin of (Burchell and Brown), 388
 dilated, role of, in abnormal splitting of second heart sound (Schrire and Vogelpoel), 501
 disease, hyaline, diffuse, of foals and infants (Burch and DePasquale), 428 (Annot.)
 ischemia, congenital heart disease with. Study of pulmonary vascular lesions before and after systemic pulmonary anastomosis (Fragoyannis and Kardalinos), 335
 stenosis, vectorcardiogram in ventricular septal defect associated with (Pileggi, et al.), 25
 systemic and, circulations in man, effects of intravenous guanethidine on (Taylor, et al.), 239
- Pulsation, paradoxical, of precordium in myocardial infarction and angina pectoris (Eddleman and Langley), 579
- Pulseless disease, clinical features in 48 cases of (Sano, 1961) (Table II) (McKusick), 59
- Pumping, balloon, diastolic, (with carbon dioxide) in aorta—mechanical assistance to failing circulation (Moulopoulos, et al.), 669
- Puncture, suprasternal, of left atrium and great vessels. Experience from 500 punctures (Hansen, et al.), 443
- Purkinje fibers, subendocardial, and muscle fibers of left septal surface, activation of, before and after left bundle branch block (Venetose, et al.), 346
- Purkinje-cell, monster, nature of so-called "congenital rhabdomyoma of heart." Forme fruste of tuberous sclerosis (Elliott and McGeachy), 636
- ### Q
- Q wave in Lead V₆ in heart disease of infancy and childhood, with special reference to diastolic loading (Watson and Keith), 629
- Q waves, absent, and coronary heart disease (Blomquist, et al.), 573 (Annot.)
- Qv₆, depth of, in heart disease of infancy and childhood (Table II) (Watson and Keith), 631
 in normal children (Table I) (Watson and Keith), 630
- QRS complexes, premature, interruption of T waves by, and relationship of this phenomenon to ventricular fibrillation (Palmer), 367
- QRSsE-loop findings, vectorcardiographic, in inferoposterior myocardial infarction (Walsh, et al.), 516
- Q-T interval, normal (Simonson, et al.), 747
- Quinidine-induced ventricular fibrillation, treatment of, by closed-chest resuscitation and external defibrillation (Rainier-Pope, et al.), 582
- ### R
- Radiopaque streamer technique, preliminary report on. Flow patterns in heart and great vessels of man (Rockoff, et al.), 553
- Recorder, blood pressure, portable. Accuracy and preliminary use in evaluating intradaily variations in pressure (Hinman, et al.), 663
- Regurgitation, mitral, pure, partial persistent atrioventricular canal simulating (Brockenbrough, et al.), 9
- Renal function, cardiac and, effect of postural changes on, in hypertensive subjects (Taquini, et al.), 78
- Responses, circulatory, to hyperventilation and exercise in normal subjects (Thompson, et al.), 106
- Rest and exercise, hemodynamic and metabolic effects of angiotensin II during, in normal healthy subjects (Johnson and Bruce), 212
- Resuscitation, closed-chest, and external defibrillation, treatment of quinidine-induced ventricular fibrillation by (Rainier-Pope, et al.), 582

"Rhabdomyoma, congenital, of heart," so-called, monster Purkinje-cell nature of. *Forme fruste* of tuberous sclerosis (Elliott and McGeachy), 636

Rheumatic fever, adult (Elster), 137 (Annot.)
in tropics (García Palmieri, et al.), 18

heart disease, effect of intracardiac acetylcholine infusion upon right heart dynamics in patients with, studied during exercise (Bernstein, et al.), 86

physical characteristics and diagnoses in 20 patients with (Table I) (Bernstein, et al.), 86

Rv₆ : Rv₅ voltage ratio in left ventricular hypertrophy (Holt and Spodick), 65

S

Saline, effect of infusion of, on response of blood pressure to intravenous tetraethylammonium chloride (McCall and Tuttle), 659

Samburu tribe of Northern Kenya, cardiovascular studies in (Shaper), 437

Sclerosis, tuberous, *forme fruste* of; monster Purkinje-cell nature of so-called "congenital rhabdomyoma of heart" (Elliott and McGeachy), 636

Screening tests, cardiovascular, use of death rates to evaluate (Wylie), 92

Septal defect, interventricular, traumatic, of heart. Case report (Stern and Stoddard), 821
ventricular, associated with pulmonary stenosis, vectorcardiogram in. Study of 60 cases (Pileggi, et al.), 25

criteria of left ventricular diastolic overloading in (Table IV) (Watson and Keith), 634

surface, left, subendocardial Purkinje fibers and muscle fibers of, activation of, before and after left bundle branch block (Venerose, et al.), 346

Serum, cholesterol and, turbidity evaluation measurements in atherosclerosis (Tochowicz, et al.), 760

apparent, effect of triparanol on, by age, sex, diagnostic group (Table II) (Zimmerman, et al.), 331

atherosclerosis and levels of, in postmortem investigations (Marek, et al.), 768

Sinoatrial conduction, prolonged, observations on; atrial parasystole with interpolation (Langendorf, et al.), 649

Sinus of Valsalva, congenital aneurysm of. Anatomy and classification (Sakakibara and Konno), 405

aneurysms of. Clinical study (Sakakibara and Konno), 708

types of aneurysms of (Sakakibara and Konno), 414

Situs inversus, partial, levocardia with, incidental finding in 15-year-old boy (Shibolet, et al.), 699

syndrome of levocardia, multiple cardiac defects, and absent spleen. Case report (Badr-El-Din), 115

Sound generator, intracardiac, for study of transmission of heart murmurs in man (Ferguson), 232

heart, second, role of dilated pulmonary artery in abnormal splitting of (Schrire and Vogel-poel), 501

Spatial vectorcardiography, 577 (B. Rev.)

Spleen, absent, syndrome of levocardia, multiple cardiac defects, situs inversus, and. Case report (Badr-El-Din), 115

Splitting, abnormal, of second heart sound, role of dilated pulmonary artery in (Schrire and Vogelpoel), 501

Starling mechanism, role of pericardium in application of, to unanesthetized animals (Badeer), 427 (Annot.)

Stenosis, mitral, response of phonocardiographic and hemodynamic features of, to inhalation of amyl nitrite (Bousvaros), 101

of extracranial arteries, role of; cerebral infarction, 845 (B. Rev.)

pulmonary, vectorcardiogram in ventricular septal defect associated with (Pileggi, et al.), 25
subaortic, hypertrophic, idiopathic (Calvin, et al.), 477

Storage, binding and (Mendlowitz), 721 (Annot.)

Streamer, radiopaque, technique, preliminary report on. Flow patterns in heart and great vessels of man (Rockoff, et al.), 553

Stress and your heart, 141 (B. Rev.)

Subaortic stenosis, hypertrophic, idiopathic (Calvin, et al.), 477

Subendocardial Purkinje fibers and muscle fibers of left septal surface, activation of, before and after left bundle branch block (Venerose, et al.), 346

Sulfate, guanethidine, new antihypertensive agent, clinical evaluation of (Chandrasekar, et al.), 309

Suprasternal puncture of left atrium and great vessels. Experience from 500 punctures (Hansen, et al.), 443

Surgical treatment for heart diseases: cardiopericardiomyopexy, 285 (B. Rev.)

Surgically induced disturbance of right ventricular conduction, delay in onset of right ventricular contraction in patients with (Goldblatt, et al.), 485

Sympathomimetic amines, circulatory effects of (Eckstein and Abboud), 119

Syndrome, postcardiotomy, after implantation of pacemaker (Dressler), 757

Systemic and coronary hemodynamics, effects of hyperventilation on (Rowe, et al.), 67

and pulmonary circulations in man, effects of intravenous guanethidine on (Taylor, et al.), 239

T

T waves, interruption of, by premature QRS complexes and relationship of this phenomenon to ventricular fibrillation (Palmer), 367

Tachycardia, external countershock treatment of ventricular fibrillation and. Case report (Parmley and McGerity), 692

Takayasu's disease, comparison of Buerger syndrome and (Table III) (McKusick), 61

Tape recording, magnetic, advantages of; time expansion in vectorcardiography (Estes, et al.), 98

- Teleoroentgenograms, electrocardiograms, and kine-
tociardiograms from patients with left
ventricular function, comparative study
of (Part I) (Davie, et al.), 775
- Tetraethylammonium chloride, intravenous, effect
of infusion of saline on response of blood
pressure to (McCall and Tuttle), 659
- Three-dimensional problem (Appendix I) (Berry and
Bayley), 817
- Thrombosis and anticoagulant therapy, 846 (B.
Rev.)
- Time expansion in vectorcardiography. Advantages
of magnetic tape recording (Estes, et al.),
98
- Tissue necrosis, prevention of, with levarterenol-
adrenolytic mixture (Brown and Green),
545
- Touring and electrocardiograms (Chatillon and
Duchosal), 283 (Annot.)
- Tracheoesophageal constriction produced by un-
usual combination of anomalies of great
vessels (Keats and Martt), 265
- Transmission of heart murmurs, intracardiac sound
generator for study of, in man (Feruglio),
232
- Transventricular aortic commissurotomy, left ven-
tricular parietal block produced by (Sam-
son and Bruce), 41
- Traumatic interventricular septal defect of heart.
Case report (Stern and Stoddard), 821
- Tricuspid atresia; electrocardiographic study
(Somlyo and Halloran), 171
- Triparanol, loss of hair during prolonged therapy
with (Table V) (Zimmerman, et al.), 332
(MER-29) therapy in office practice (Zimmerman,
et al.), 329
- Tritiated digoxin, studies with, in human subjects
after intravenous administration (Doherty
and Perkins), 528
- Tropics, rheumatic fever in (García Palmieri, et al.),
18
- Tuberous sclerosis, forme fruste of; monster Pur-
kinje-cell nature of so-called "congenital
rhabdomyoma of heart" (Elliott and
McGeachy), 636
- Turbidity, cholesterol and serum, evaluation meas-
urements in atherosclerosis (Tochowicz, et
al.), 760
- V
- V₆, Lead, Q wave in, in heart disease of infancy and
childhood with special reference to diastolic
loading (Watson and Keith), 629
- Valsalva, congenital aneurysm of sinus of. Anatomy
and classification (Sakakibara and Konno),
405
aneurysms of sinus of. Clinical study (Sakaki-
bara and Konno), 708
sinus of, growing process of aneurysm of (Table I)
(Sakakibara and Konno), 415
- Valve, aortic, damage to, as cause of death in bac-
terial endocarditis (Cohen and Freedman),
722
subacute bacterial endocarditis and (Bunn), 573
(Annot.)
mitral, aneurysm of, associated with bacterial
endocarditis (Hoffman and Robinson), 826
- Variations, intradaily, in pressure, accuracy and
preliminary use in evaluating; portable
blood pressure recorder (Hinman, et al.),
663
- Vasa vasorum in coronary atherosclerosis (Blake),
138 (Annot.)
- Vascular disease, form of, relatively frequent in
Orient (McKusick), 57
lesions, pulmonary, study of, before and after
systemic pulmonary anastomosis. Con-
genital heart disease with pulmonary
ischemia (Fragoyannis and Kardalinos),
335
resistance, coronary, local effect of glyceryl tri-
nitrate, nitrite, papaverine, and atropine
upon (Frohlich and Scott), 362
- Vasodilator drug (Persantin), coronary, new, studies
with (Kinsella, et al.), 146
- Vector, heart, tempero-spatial, calculated, in proved
isolated left ventricular overwork (Toole,
et al.), 537
- Vectorcardiogram in left ventricular hypertrophy.
Study using Frank lead system (Wallace,
et al.), 466
in ventricular septal defect associated with pul-
monary stenosis. Study of 60 cases
(Pileggi, et al.), 25
- Vectorcardiographic findings in left bundle branch
block. Study using Frank lead system
(Wallace, et al.), 508
QRSsE-loop findings in inferoposterior myocardial
infarction (Walsh, et al.), 516
- Vectorcardiography, spatial, 577 (B. Rev.)
time expansion in. Advantages of magnetic tape
recording (Estes, et al.), 98
- Ventricular aneurysm. Report of case occurring in
16-year-old boy with granulomatous myo-
carditis (Zeeman, et al.), 270
apex, left, calcified aneurysm of, associated with
intraventricular block of left bundle branch
type (Williams, et al.), 557
beats, premature, in complete A-V dissociation;
returning cycle (Fleischmann and Pick),
299
interpolated, iatrogenic parasystole and
(Soloff), 563
conduction, critical rates in. Bilateral bundle-
branch block (Vesell, et al.), 162
contraction, right, delay in onset of, in patients
with surgically induced disturbance of
right ventricular conduction (Goldblatt, et
al.), 485
fibrillation and tachycardia, external counter-
shock treatment of. Case report (Parmley
and McGerity), 692
importance of oxygen differentials in etiology
of, after ligation of, coronary artery
(Badeer), 374
interruption of T waves by premature QRS com-
plexes and relationship of this phenomenon
to (Palmer), 367
quinidine-induced, treatment of, by closed-
chest resuscitation and external defibril-
lation (Rainier-Pope, et al.), 582
function, left, comparative study of electrocardio-
grams, teleoroentgenograms, and kine-
tociardiograms from patients with (Part I)
(Davie, et al.), 775

Ventricular—Cont'd

- hypertrophy, left, concentric and eccentric, electrocardiographic findings in (Selzer, et al.), 320
- electrocardiographic recognition of (Rosenfeld, et al.), 731
- $R_{V6} : R_{V5}$ voltage ratio in (Holt and Spodick), 65
- sequential changes in development of electrocardiographic pattern of, in hypertensive heart disease (Cosby, et al.), 180
- vectorcardiogram in. Study using Frank lead system (Wallace, et al.), 466
- left, diastolic overloading, criteria of, in patent ductus arteriosus (Table III) (Watson and Keith), 632
- overwork, left, isolated, proved, calculated tempero-spatial heart vector in (Toole, et al.), 537
- parietal block, left, produced by transventricular aortic commissurotomy (Samson and Bruce), 41
- septal defect associated with pulmonary stenosis, vectorcardiogram in. Study of 60 cases (Pileggi, et al.), 25

Ventricular—Cont'd

- thrust, left, further definition of (Part II) (Davie, et al.), 786
- Vessels, great, flow patterns in heart and, of man. Preliminary report on radiopaque streamer technique (Rockoff, et al.), 553
- suprasternal puncture of left atrium and. Experience from 500 punctures (Hansen, et al.), 443
- tracheoesophageal constriction produced by unusual combination of anomalies of (Keats and Martt), 265
- Voltage ratio, $R_{V6} : R_{V5}$, in left ventricular hypertrophy (Holt and Spodick), 65

W

- Waves, P, with delayed ascent, clinical significance of (Gross), 497
- William Harvey Lectures on whole of anatomy, 844 (B. Rev.)
- Work capacity of hypothermic heart (Badeer), 839 (Annot.)
- WPW syndrome (Wolff), 284 (Annot.)
